Dadi Institute Of Engineering And Technology

Cgpa-7.54(pursuing)

SKILLS

Technical Skills:

#c

#java

#python

#c++

Personal Traits

- Flexible and adaptable to change
- Team Player

CAREER OBJECTIVE

Seeking a career that is challenging and interesting and let me work on the leading areas of technology and a job that gives me opportunities to learn, innovate and enhance my skills and strengths in conjunction with company goals and objectives.

ACADEMIC PROJECTS AND WORKSHOPS

DEEP LEARNING WORKSHOP

- By the end of the workshop, we will have a strong foundation in deep learning concepts and techniques. They will be able to build, train, and evaluate basic deep neural network models for various tasks, such as image classification and sequence modeling. we also gain insights into the ethical considerations surrounding AI and the latest trends in deep learning research.
- Fundamentals in deep learning
- Deep learning applications

COMMUNITY SERVICE PROJECT OVER NUTRIRIOUS DIET

- The "Promoting Nutritious Diets for Healthier Lives" community service project aims to educate and empower individuals within our community to make informed choices about their diets, leading to improved health and overall well-being. This project will involve various initiatives and activities that spread awareness, provide education, and offer practical guidance on adopting and maintaining a nutritious diet.
- Develop informative pamplets, brochures, and visual aids that simplify complex nutritional information. These materials will be distributed at community centers, schools, local events, and healthcare facilities.
- Increased awareness and knowledge about the importance of a nutritious diet.

ACHIEVEMENTS

- Certified on python for data science organised by IBM.
